What is a Memorial or Tribute Video?

- It is a special video focusing on the life of the deceased and is often shown at a funeral home or house of worship prior to or during a funeral or memorial service.
- It is created using photos, slides, music, and even video clips and needs to be produced very quickly, usually within 24 hours.
- The formula we refer to is: 30 photos plus 2 songs equals: all the material we need to produce a meaningful Memorial Video.
- A Memorial Video is much more than a slide show - it is a unique way to focus on the life of the deceased.

- Every photo is digitally restored so that old photos become new and faded photos become vibrant.
- Most videos are 4-6 minutes in length and are presented with movement in the photos that is carefully timed to music.
- The video is delivered on a high quality DVD. A photo of the deceased will be displayed until the "Play" button is pushed.

"a time to weep and a time to laugh... a time to mourn and a time to dance"

Ecclesiastes 3:4

- It is often used at a visitation or gathering.
- It is also appropriate to use the video as part of the funeral or memorial service.
- It can be shared with those who were unable to attend the service.
- It becomes a keepsake for family members and friends of the deceased.

📸 Why produce a Memorial Video? 🧩

- Gathering the photos and resources for the video becomes a special time of reminiscing and sharing memories.
- The video changes the whole atmosphere of the gathering - instead of people not knowing what to say, there is a spirit of celebration.
- The value of a Memorial Video increases with time and will ultimately be regarded as priceless.

How much does a **Memorial Video cost?**
